

CORMETECH

Processing Operator

SUMMARY OF POSITION

We are looking for a full time Processing Operator in our Kings Mountain, NC facility who is dedicated to safety, quality & environmental impacts, self-motivated, and an excellent communicator. This position will perform tasks such as vacuuming and catalytic element replacements that may require heavy lifting. In addition, this position will be responsible for various prep work, such as cutting felt, module tear down and staging catalyst logs for use. The work is in an industrial environment and may require manual cleaning of the product in order to prepare for further detailed cleaning. Responsibilities could include fork lift driving if skills and experience are met for driving. Work is performed under general supervision.

WHAT YOU WILL BE DOING

- Follow safety instruction and plant rules
- Assist in module processing
- Perform duties involved in maintenance, arrangement and cleanliness of the warehouse/worksite and its equipment such as general housekeeping.
- May be required to drive a forklift to lift 3,500 lb. modules if the employee has forklift driving skills.
- Will be required to pass company's forklift training class and get official license to drive forklift.
- Notify Supervisor of nonconforming goods
- Only work 15 days out of a month
- Maybe required to work in the dry cleaning and wear PPE gear called the PAPR respirator.

WHO WE ARE

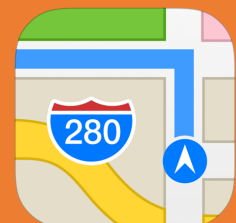

Cormetech is the world's leader in environmental technology. We help customers reduce their release of air pollutants and improve the environment. Protecting our environment for future generations has been important to us since our inception.

BENEFITS OF OUR WORK

Our focus is to ensure our environment is full of clean, unpolluted air. Not only are we responsible for 65% of the pollution reduction in our air since our inception, our manufacturing methods of regeneration and recycling have eliminated 6.5 million cubic feet of landfill. Our drive to improve the environment does not end there, we are continually innovating and seeking ways to improve air, land, and water quality.
