

CORMETECH

Operations Associate \$500 Signing Bonus

SUMMARY OF POSITION

We are looking for a full time Operations Associate in our Durham, NC facility who is dedicated to safety, quality & environmental impacts, self-motivated, and an excellent communicator. This position involves material assembly, equipment operations, decision making, ability to show attention to quality detail work, and the ability to multitask. This position will require recording process information and making decisions based that information. May require using overhead cranes and/or forklifts to move catalyst fixtures or modules through the process while maintaining process specifications and recording process data. The operations associate may also encounter direct interaction with chemicals in an industrial atmosphere. Must be able to work required assigned shifts, day and/or evenings and possibly weekends.

Current shift openings:

11 pm — 7:30 am Sunday thru Thursday (overtime maybe required)

3 pm — 11:30 am Monday thru Friday (overtime maybe required)

WHAT YOU WILL BE DOING

- Follow all safety procedures
- Read and follow process instructions
- Maintain process specifications
- Verify process material (temp, pH, etc.) is within specs before using
- Record appropriate process information
- Alert supervisor of process deviations or nonconforming material
- Potentially assist in chemical mixing and additions as needed
- Potentially may be required to drive a forklift
- Work collaboratively with worker's compensation programs to improve operational efficiencies and reduce health and safety related costs.
- Maintain EHS Program related standard operating procedures (SOPs).
- Special projects as assigned

WHO WE ARE

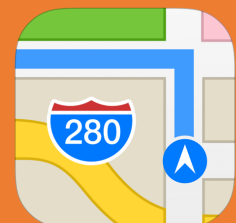

Cormetech is the world's leader in environmental technology. We help customers reduce their release of air pollutants and improve the environment. Protecting our environment for future generations has been important to us since our inception.

BENEFITS OF OUR WORK

Our focus is to ensure our environment is full of clean, unpolluted air. Not only are we responsible for 65% of the pollution reduction in our air since our inception, our manufacturing methods of regeneration and recycling have eliminated 6.5 million cubic feet of landfill. Our drive to improve the environment does not end there, we are continually innovating and seeking ways to improve air, land, and water quality.
