Maintenance Technician - Night Shift

\$500 Signing Bonus

SUMMARY OF POSITION

We are looking for a full time Maintenance Technician for our night shift in our Durham, NC facility. The Maintenance Technician is responsible for physical and mechanical condition of the building, utility systems, facility and production equipment. Perform a variety of general and specialized repairs, installations and maintenance to support production and process equipment. Maintain facility equipment, building and utility systems such as steam, chillers, and water, air and gas lines. Maintain a variety of electrical and electronic equipment. Diagnose problems and replace worn or defective parts. Inspect equipment and perform preventative maintenance duties.

WHAT YOU WILL BE DOING

- Responsible for daily maintenance support and repairs of all production and facility equipment and systems. Replace pumps and motors as needed.
- Responsible for daily preventative maintenance of all production and facility equipment through use of the work order system.
- Must be able to work around ammonia systems, acid systems, steam systems, high voltage, and know the safeguards against being accidentally exposed to fumes, live steam, and/or electrical shock.
- Must know basic electricity and electronics including three-phase and single-phase controls, ladder diagrams, low-voltage relay logic, digital and analog electronics, microprocessors, single line diagrams, electrical schematics and power distribution drawings.
- Troubleshoots and repairs mechanical, hydraulic, pneumatic and electrical/electronic equipment, programmable controls, power supplies, drives, gages and test equipment. Installs, diagnoses, repairs and maintains a variety of production and building equipment.
- Perform preventive maintenance inspections and preventative maintenance on all equipment per checklists and /or manufactures' procedures.
- Must be able to support maintenance requirements for off-site/ leased manufacturing and warehouse operations including picking up spare parts from off-site locations.
- Work with all Managers, Supervisors, and Operators to repair maintenance concerns in a timely

Additional Duties:

- Special projects as required.

WHO WE ARE

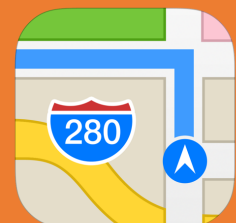

Cormetech is the world's leader in environmental technology. We help customers reduce their release of air pollutants and improve the environment. Protecting our environment for future generations has been important to us since our inception.

BENEFITS OF OUR WORK

Our focus is to ensure our environment is full of clean, unpolluted air. Not only are we responsible for 65% of the pollution reduction in our air since our inception, our manufacturing methods of regeneration and recycling have eliminated 6.5 million cubic feet of landfill. Our drive to improve the environment does not end there, we are continually innovating and seeking ways to improve air, land, and water quality.
