

CORMETECH

Team Lead Processing Operator

\$500 Signing Bonus

SUMMARY OF POSITION

We are looking for a full time Team Lead Processing Operator in our Kings Mountain, NC facility who is dedicated to safety, quality & environmental impacts, self-motivated, and an excellent communicator. The lead Processing Operator will be responsible for ensuring all tasks are completed safely, producing quality results and achieving daily productivity goals set by the Supervisor. Effective communication and problem-solving skills are needed to be a successful Lead Operator. This position will require a working knowledge of Industrial Processing and QA/QC. The individual will fill in for the Shift Supervisor role when the Shift Supervisor is absent.

WHAT YOU WILL BE DOING

- Observe work being performed with an emphasis on safety
- Work with Supervisor to prioritize staffing assignments to ensure that Processing daily goals are met
- Responsible for the accurate completion of QA/QC daily paperwork
- Perform daily checks on equipment to ensure it is operating properly
- Manage the manpower to optimize output of production
- Keep area clean and presentable at all times
- Distribute all PPE and enforce the proper usage at all times
- Must be able to plan, organize, direct, control and supervise the work of others
- Must be able to work a flexible schedule
- Proper completion of Bill of Ladings (BOLs)

WHO WE ARE

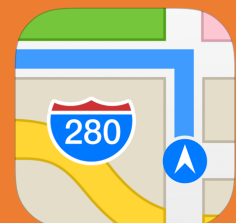

Cormetech is the world's leader in environmental technology. We help customers reduce their release of air pollutants and improve the environment. Protecting our environment for future generations has been important to us since our inception.

BENEFITS OF OUR WORK

Our focus is to ensure our environment is full of clean, unpolluted air. Not only are we responsible for 65% of the pollution reduction in our air since our inception, our manufacturing methods of regeneration and recycling have eliminated 6.5 million cubic feet of landfill. Our drive to improve the environment does not end there, we are continually innovating and seeking ways to improve air, land, and water quality.
